**RE: Well Water Sampling
Laboratory Test Results**

On behalf of Wood River Pipe Lines LLC (Wood River), Antea®Group would like to thank you for your cooperation in allowing Antea Group to collect a water sample from the water supply well at your residence. The water sample was recently collected in order to confirm that petroleum products have not impacted your well water as a result of a petroleum spill from the pipeline that is located in the area of your residence.

Enclosed for your information are the test results from your well water. We are pleased to report favorable test results that meet both the United States Environmental Protection Agency (USEPA) and Illinois Environmental Protection Agency (IEPA) standards for drinking water.

If you desire further explanation of these results, or if you have additional questions regarding the water testing procedures, please contact John Bevis of the Kankakee County Health Department at 815-955-5433 or Mike Norris of Wood River, District Right-of-Way Agent at 219-313-5321. With your permission, we may periodically request to re-sample your well in the future. We thank you for your participation in the well water sampling program.

If you would prefer results being sent to you via email versus FedEx please contact Beth Helgeson at 800-477-7411 .

Sincerely,

A handwritten signature in black ink, appearing to read "Gary M.", with a stylized flourish at the end.
